Quantitative studies on the multiplication of neoplastic cells *in vivo*. II. Growth curves of three ascites lymphomas. László Révész and George Klein. [Plate 21] 253
The growth patterns of some transplantable animal tumors in sponge matrix tissue culture. Joseph Leighton. [Plates 22–27] 275
The influence of various culture media on the growth of Earle's strain L cells and chick-heart fibroblasts *in vitro*. Relda Cailleau and Paul L. Kirk. [Plate 28] 295
The relative precision of dose-response data in the virus and tumor fields as compared with that in certain other fields of biology. W. Ray Bryan 305
Stable standard preparations of the Rous sarcoma virus preserved by freezing and storage at low temperatures. W. Ray Bryan, John B. Moloney, and Dorothy Calnan 315
The density of the Rous sarcoma virus in sucrose solutions. H. Kahler, W. R. Bryan, B. J. Lloyd, Jr., and J B. Moloney 331
The sedimentation of the Rous sarcoma virus. H. Kahler, W. R. Bryan, B. J. Lloyd, Jr., and J. B. Moloney 337
The development of an isogenic subline of mice (C57BL/6-*H-2*^{4}) resistant to transplantable neoplasms indigenous to strain C57BL. Paulo R. F. Borges, Barbara J. Kvedar, and G. Elizabeth Foerster 341
The glutamlytransferase activity of normal and neoplastic tissues. Leon Levintow 347
Lack of effect of adrenalectomy on tumor regression following X irradiation. Joanne Weikel Hollcroft and Marion Matthews 353
Mammary cancer in mice observed in different laboratories and during the war period. John J. Bittner 359
Effect of defective ring gland on incidence of tumors in *Drosophila*. Walter J. Burdette 367
A quantitative interpretation of the distribution of induced pulmonary tumors in mice. Milton J. Polissar and Michael B. Shimkin 377
Report of committee on infectious ectromelia of mice (mouse pox) 405
Announcements 409

No. 3—DECEMBER 1954

Resistance of mice to multiple inoculations of a transplantable tumor. Morris K. Barrett and Walter H. Hansen 411
Urinary excretion of fourteen amino acids by normal and cancer subjects. Charles H. Eades, Jr., and Robert L. Pollack 421
Relation of dietary fat level to fatty livers in several strains of mice. Paul F. Fenton, Marian T. Dowling, and Jeanne S. Mershon 429
The free and combined amino acids in the protein-free ultrafiltrates from whole chick-embryo extracts. Benton B. Westfall, Ellison V. Peppers, and Wilton R. Earle 433
A serological reaction in malignancies. Werner F. Eisenstaedt 439
Spontaneous adrenal medullary tumors in hybrid mice. E. Elizabeth Jones and L. Jeanne Woodward. [Plates 29–31] 449
The effect of triethylene thiophosphoramide (Thio-TEPA) in the treatment of chronic myelocytic chloroleukemia in the rat. Harry Shay, Margot Gruenstein, and Charles Harris. [Plates 32–35] 463
Vascular reactions of normal and malignant tissues *in vivo*. VII. Observations on vascular reactions in destruction of tumor homografts. Glenn H. Algire. [Plates 36, 37] 483
Growth of cells *in vivo* in diffusion chambers. I. Survival of homografts in immunized mice. Glenn H. Algire, James M. Weaver, and Richmond T. Prehn. [Plates 38–40] 493

Page

The diffusion-chamber technique applied to a study of the nature of homograft resistance. RICHMOND T. PREHN, JAMES M. WEAVER, and GLENN H. ALGIRE. [Plate 41] ... 509

The inhibitory action of *p*-hydroxypropiophenone on hepatic carcinoma induced by azo dye. CHARLES H. ROBERTSON, A. CLARK GRIFFIN, and Howard L. RICHARDSON ... 519

Metabolism of N^{15}-labeled *p*-dimethylphenylenediamine in rats. JULIUS WHITE, HARRIETT T. COOL, RUTH S. STANDER, and PHILIP W. DAVID ... 529

Tumors induced by 2-acetylaminofluorene in virgin and breeding females of five strains of rats and in their offspring. ALEXANDER SYMEONIDIS ... 539

Proceedings: Symposium on 25 Years of Progress in Mammalian Genetics and Cancer ... 551

Significance and utilization of animal individuality in disease research. JOHN W. GOWEN ... 555

The importance of differences in morphology in inbred strains. THELMA B. DUNN. [Plates 42, 43] ... 573

The part of mammalian genetics in founding The Jackson Memorial Laboratory. W. E. CASTLE ... 595

Quantitative genetics of skeletal variations in the mouse. I. Crosses between three short-ear strains (P, NB, SEC/2). EARL L. GREEN. [Plate 44] ... 609

Genetic control of embryonic growth and differentiation. SALOME GLUECKSOHN-WAELSCH ... 629

Inheritance of susceptibility to congenital deformity—embryonic instability. MEREDITH N. RUNNER. [Plate 45] ... 637

Some examples of gene-controlled functional disturbances in the mouse. HERMAN B. CHASE. [Plate 46] ... 655

The enhancing effect (or actively acquired tolerance) and the histocompatibility-2 locus in the mouse. GEORGE D. SNELL ... 665

The expanding knowledge of the genome of the mouse. MARGARET M. DICKIE ... 679

Thyroid-pituitary tumorigenesis. JACOB FURTH ... 687

Studies on ovarian and pituitary tumorigenesis. W. U. GARDNER ... 693

Induced ovarian and adrenal tumors. KATHARINE P. HUMMEL ... 711

Carcinogenesis in the adrenal. GEORGE W. WOOLLEY ... 717

The effects of domestication and selection on the behavior of the Norway rat. CURT P. RICHTER ... 727

The effects of selection and domestication upon the behavior of the dog. J. P. SCOTT ... 739

The effects of selection and domestication on man. LAURENCE H. SNYDER ... 759

Localization of gene action in the causation of lung and mammary gland tumors in mice. W. E. HESTON. [Plate 47] ... 775

The use of F_1 hybrid and backcross generations to reveal new and/or uncommon tumor types. MARGARET M. DICKIE ... 791

Significance of recent developments in nuclear cytology and cytogenetics of the mouse. ELIZABETH FEKETE and ALLEN B. GRIFFEN. [Plates 48, 49] ... 801

Studies on transformations in leukemic cells of the mouse. L. W. LAW ... 817

Summary of patterns of mammalian gene action. SEWALL WRIGHT ... 837

Announcement ... 853

No. 4—FEBRUARY 1955

Egon Lorenz. [Plate 50] ... Frontispiece

Editorial. HENRY S. KAPLAN ... III

The histopathology of bacterial infection in irradiated mice. CHARLES C. CONGDON, FLETCHER P. WILLIAMS, JR., ROBERT T. HABERMAN, and EGON LORENZ. [Plates 51–56] ... 855

Regenerative growth in the urodele forelimb following ultraviolet radiation. ELMER G. BUTLER and HAROLD F. BLUM. [Plate 57] ... 877

Page

The effect of fractionated X-ray dosage upon the mouse testis. I. Maximum weight loss following 80 to 240 r given in 2 to 5 fractions during 1 to 4 days. HENRY I. KOHN and ROBERT F. KALLMAN 891

The radiation recovery factor: Preservation by the Polge-Smith-Parkes technique. DAVID W. H. BARNES and JOHN F. LOUTIT 901

On wasted radiation and the interpretation of experiments with chronic irradiation. R. H. MOLE 907

Some new experiments on protection against whole-body irradiation. A. LACASSAGNE, J-F. DUPLAN, and N. P. BUU-HOI 915

Results of exposure of newborn strain HR mice to X radiation. MARGARET K. DERINGER and EGON LORENZ 923

Fertility and tumor development in (C57L × A)F_1 hybrid mice receiving X radiation to ovaries only, to whole body, and to whole body with ovaries shielded. MARGARET K. DERINGER, EGON LORENZ, and DELTA E. UPHOFF .. 931

Comparison of thyroid lobes, autotransplanted and *in situ*, in the rat: Growth and I^{131} uptake. SEYMOUR H. WOLLMAN and ROBERT O. SCOW 943

Some biological aspects of the factor in bone marrow responsible for hematopoietic recovery following systemic irradiation. MARY B. BROWN, BARBARA B. HIRSCH, C. SUSAN NAGAREDA, SARAH K. HOCHSTETLER, WILLIAM G. FARAGHAN, PAUL TOCH, and HENRY S. KAPLAN 949

The time factor in inhibition of lymphoid-tumor development by injection of marrow cell suspensions into irradiated C57BL mice. HENRY S. KAPLAN, LINCOLN E. MOSES, MARY B. BROWN, C. SUSAN NAGAREDA, and BARBARA B. HIRSCH 975

Nucleic acid content of the thymic cells of normal and irradiated C57BL mice. PATRICIA P. WEYMOUTH, NORMAN E. DELFEL, RUTH J. DOELL, HELENE L. STEINBOCK, and HENRY S. KAPLAN 981

Electron microscopy of the virus of rabbit fibroma. BOLIVAR J. LLOYD, JR., and H. KAHLER. [Plates 58–60] 991

The *in vitro* initiation of pulmonary adenomas in fetal mouse lung by a single exposure to ultraviolet irradiation of wavelength 2,537 Å. STANFIELD ROGERS . 1001

Spontaneous and radiation-induced pituitary adenomas of mice. ARTHUR C. UPTON and JACOB FURTH. [Plates 61–63] 1005

Successful skin homografts after the administration of high dosage X radiation and homologous bone marrow. JOAN MICHEL MAIN and RICHMOND T. PREHN. [Plate 64] 1023

Effect of local roentgen irradiation on the formation of new capillaries after injury. RUTH M. MERWIN and ELIZABETH L. HILL 1031

Study of recovery at low temperature of X-irradiated *E. coli* cells. A. W. PRATT, W. S. MOOS, and M. EDEN 1039

Long-term effects of acute and chronic irradiation in mice. I. Survival and tumor incidence following chronic irradiation of 0.11 r per day. EGON LORENZ, JOANNE WEIKEL HOLLCROFT, ELIZA MILLER, CHARLES C. CONGDON, and ROBERT SCHWEISTHAL 1049

Long-term survival following X irradiation and the irradiation of the α particles from radon and its decay products. JOANNE WEIKEL HOLLCROFT, EGON LORENZ, MARION MATTHEWS, and CHARLES C. CONGDON. [Plate 65] 1059

Experiments on the disposition of acutely inhaled $C^{14}O_2$. AUSTIN M. BRUES and AGNES N. STROUD 1071

Effects of combined local treatment with radioactive and chemical carcinogens. ARTHUR M. CLOUDMAN, KATHERINE A. HAMILTON, RALPH S. CLAYTON, and AUSTIN M. BRUES 1077

Aminoaciduria following total-body irradiation in the human. ELAINE J. KATZ and ROBERT J. HASTERLIK 1085

Protection of mice against X irradiation by plasma proteins. AGNES N. STROUD, AUSTIN M. BRUES, and MILDRED M. SUMMERS. [Plate 66] 1109

A comparative analysis of radiation lethality in mammals exposed at constant average intensity for the duration of life. GEORGE A. SACHER..... 1125

Level of protein intake and nitrogen excretion in rats following total-body X irradiation. JULIUS WHITE, BERNARD E. BURR, HARRIETT T. COOL, PHILIP W. DAVID, and MONA S. ALLY..... 1145

Cirrhosis of the liver in rats following total-body X irradiation. JULIUS WHITE, CHARLES C. CONGDON, PHILIP W. DAVID, and MONA S. ALLY. [Plates 67, 68]..... 1155

No. 5—APRIL 1955

Announcement..... II

Cytological studies of tumors. XIV. Isolation of single-cell clones from a mixed-cell tumor of the rat. SAJIRO MAKINO and KYOKO KANÔ. [Plates 69–71]..... 1165

Congenital polycystic disease of the kidney occurring in mice. BARBARA M. RUPPLE. [Plates 72–74]..... 1183

Dose-response relations in experimental transmission of avian erythromyeloblastic leukosis. V. Influence of host age and route of virus inoculation. EDWARD A. ECKERT, DOROTHY BEARD, and J. W. BEARD..... 1195

Virus of avian erythromyeloblastic leukosis. V. *p*H Stability of the virus particles, the infectivity and the enzyme dephosphorylating adenosine triphosphate. EDWARD A. ECKERT, IRVING GREEN, D. G. SHARP, DOROTHY BEARD, and J. W. BEARD..... 1209

Virus of avian erythromyeloblastic leukosis. VI. Properties of the enzyme associated with the virus in dephosphorylating adenosine triphosphate. IRVING GREEN and J. W. BEARD..... 1217

Serological activities of serum fractions in animal neoplasia. S. W. LIPPINCOTT, C. T. O. FONG, H. THORNTON, L. D. ELLERBROOK, and JANET NUTTER.... 1231

Mitotic poisoning by 4-aminostilbenes. PEO C. KOLLER. [Plates 75–79]..... 1237

The chromosomes and transplantability of tumors. I. Fundamental chromosome numbers and strain specificity in ascites tumors. LEO SACHS and RUTH GALLILY. [Plates 80, 81]..... 1267

Technique for the induction of metastasizing and transplantable fibrosarcomas with croton oil. HANS SELYE. [Plates 82–84]..... 1291

Mortality attributed to lung cancer in the large cities of the United States in 1948 and 1949. ALEXANDER G. GILLIAM..... 1307

Maintenance of Brown-Pearce tumor under conditions suitable for chorioallantoic culture. WERNER G. HEIM and A. M. SCHECHTMAN..... 1313

Tumors of the human nervous system in tissue culture. I. The cultivation and cytology of meningioma cells. ISAAC COSTERO, CHARLES M. POMERAT, IRA J. JACKSON, ROSARIO BARROSO-MOGUEL, and AGUSTÍN Z. CHÉVÉZ. [Plates 85, 86]..... 1319

Tumors of the human nervous system in tissue cultures. II. An analysis of fibroblastic activity in meningiomas. ISAAC COSTERO, CHARLES M. POMERAT, ROSARIO BARROSO-MOGUEL, and AGUSTÍN Z. CHÉVÉZ. [Plates 87–92]. 1341

Intraperitoneal transplantation of the Yoshida ascites sarcoma and the ascites hepatoma to various American strains of rats. HARUO SATO..... 1367

The *in vitro* initiation of pulmonary adenomas in mouse lung tissue with nitrogen mustard. I. The influences of concentration of agent, duration of exposure, and mitotic state of the tissue at the time of exposure. STANFIELD ROGERS..... 1379

Neoplasms in mice inoculated with cell-free extracts or filtrates of leukemic mouse tissues. I. Neoplasms of the parotid and adrenal glands. SARAH E. STEWART. [Plates 93–97]..... 1391

APRIL SUPPLEMENT 1955

Conference on Experimental Hepatomas

	Page
Morphology and Genetics Study Section	II
Introduction	III
Program	IV
The origin of some inbred mice. II. Old techniques and new. LEONELL C. STRONG	1417
Histopathology of carcinogenesis and tumors of the liver in rats. HARLAN I. FIRMINGER. [Plates 98–100]	1427
Some recent findings concerning hepatomas induced with *p*-dimethylaminoazobenzene. R. KINOSITA	1443
Quantitative histology of rat liver during carcinogenesis by *p*-dimethylaminoazobenzene. ROGER DAOUST	1447
Human hepatocarcinoma and the comparative embryology of the vertebrate liver. HANS ELIAS. [Plates 101–103]	1451
General histophysiology and histopathology of the liver. W. STANLEY HARTROFT	1463
Observations concerning fluid compartments, blood-flow patterns and bile-formation in the isolated rat liver. R. W. BRAUER	1469
Observations on the cytology and electron microscopy of hepatic cells. DON W. FAWCETT. [Plates 104–114]	1475
A note on the occurrence of virus-like particles in the spontaneous hepatomas of C3H mice. DON W. FAWCETT and J. WALTER WILSON. [Plates 115–117]	1505
Transplantation of hepatomas in mice. HOWARD B. ANDERVONT and THELMA B. DUNN. [Plates 118–122]	1513
Induction of neoplasms by injection of tumor chromatin. K. E. PASCHKIS, A. CANTAROW, and J. STASNEY	1525
Some aspects of "hepatoma NK." ALEX B. NOVIKOFF	1533
Hepatocarcinogenesis by 2-acetylaminofluorene and related compounds including comments on dietary and other influences. HAROLD P. MORRIS	1535
Hepatomas in choline deficiency. W. D. SALMON, D. H. COPELAND, and M. J. BURNS. [Plates 123–133]	1549
The effects of compounds related to choline on azo-dye carcinogenesis. C. J. KENSLER, E. BIERMAN, and G. CONDOURIS	1569
Biochemical investigations on hepatic carcinogenesis. ELIZABETH C. MILLER and JAMES A. MILLER	1571
Quantitative histochemical observations on butter-yellow carcinogenesis. JESSE F. SCOTT and EDGAR B. TAFT	1591
The carcinogenicity of ethyl derivatives of *p*-aminoazobenzene. KANEMATSU SUGIURA, C. J. KENSLER, and M. L. CROSSLEY	1595
Hepatic lesions caused by protracted ethionine feeding. HANS POPPER and CLARA BRUCE. [Plates 134–136]	1597
The *in vivo* effect on liver catalase by a tumor. JESSE P. GREENSTEIN	1603
Enzymatic properties of rat liver tumor mitochondria. CLAUDE ALLARD	1607
Rhodanese activity of resting, regenerating, and neoplastic liver tissue of the rat. OTTO ROSENTHAL	1611
Utilization of uracil by acetylaminofluorene-treated rats. ABRAHAM CANTAROW, KARL E. PASCHKIS, and ROBERT J. RUTMAN	1615
Cirrhosis of the liver in rats following total-body X irradiation. JULIUS WHITE	1617
Effects of cortisone on nucleic acid composition of rat liver. CHARLES UPTON LOWE	1619
The role of hormones in liver carcinogenesis. A. CLARK GRIFFIN, HOWARD L. RICHARDSON, CHARLES H. ROBERTSON, MARGERY A. O'NEAL, and JAMES D. SPAIN	1623
Effect of cortisone administration on induced and transplanted hepatomas. CORNELIA HOCH-LIGETI. [Plate 137]	1633

Page

Human implications. Primary carcinoma of the liver in Africans. J. N. P. DAVIES 1637
Human implications of the work on experimental hepatomas. CHARLES BERMAN. [Plate 138] 1645

No. 6—JUNE 1955

The production of hemorrhage in Sarcoma 180 in mice by anaphylaxis and the inhibitory effect of cortisone on the hemorrhage-producing factor from *E. coli*. DAN H. CAMPBELL, RICHARD S. FARR, and H. RINDERKNECHT ... 1651
A quantitative comparison of the antileukemic effectiveness of two folic acid antagonists in mice. ABRAHAM GOLDIN, JOHN M. VENDITTI, STEWART R. HUMPHREYS, DON DENNIS, NATHAN MANTEL, and SAMUEL W. GREENHOUSE 1657
On the etiology of esophageal carcinoma. JOHANNES MOSBECH and AAGE VIDEBÆK 1665
Studies of the mechanism of action of urethan in initiating pulmonary adenomas in mice. I. The indirect nature of its oncogenic influence. STANFIELD ROGERS 1675
Induction of skin tumors in strain DBA mice following intermittent treatment with 9,10-dimethyl-1,2-benzanthracene and croton oil. MICHAEL KLEIN ... 1685
Effect of X irradiation on the growth of the Ehrlich ascites tumor. LÁSZLÓ RÉVÉSZ 1691
A cytologic study of the intestinal epithelium of the mouse after total-body X irradiation. WILLIAM MONTAGNA and J. WALTER WILSON. [Plates 139–147] 1703
The growth of cells *in vivo* in diffusion chambers. II. The role of cells in the destruction of homografts in mice. JAMES M. WEAVER, GLENN H. ALGIRE, and RICHMOND T. PREHN. [Plates 148–152] 1737
